

Volume of Learning & Product Disclosure

Volume of Learning

The AQF defines volume of learning as identifying the notional duration of all activities required for the achievement of the learning outcomes of a particular qualification type.

Amount of Training

Formal activities including classes and other activities as well as workplace learning.

The volume of learning allocated to a qualification should include all teaching, learning and assessment activities that are required to be undertaken by the typical student to achieve the learning outcomes. These activities may include some or all of the following: guided learning (such as classes, lectures, tutorials, online study or self-paced study guides), individual study, research, learning activities in the workplace and assessment activities.

Connect 'n' Grow Qualifications	Course Duration
