Developing skills

S.E.L.F is a life skills program that aims to develop the skills young people need for a healthy and authentic sense of self awareness in order to make informed decisions about their life and their future. It also provides students with the opportunity to connect with people and organisations that can support them post-school.

The S.E.L.F program prepares students for:

- Employment and managing a work/life balance.
- A healthy, long career, learning how to minimise burn out.
